REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 1-12 are allowed.

Regarding independent claims 1 and 4 have a similar reason, according prior art of record and/or cited arts alone or in combination fail to disclose a specific coils ends structure of an automotive alternator comprising; a stator having a stator core formed with slots extending axially at a predetermined pitch in a circumferential direction and a stator winding installed in said stator core; a rotor rotatable disposed on an inner circumferential side of said stator; and a bracket for supporting said stator and said rotor, wherein a coil end group of said stator winding is constructed such that coil ends folded back outside said slots at an end surface of said stator core are arranged circumferentially, wherein a predetermined region of outer surfaces of said coil ends in a radial direction of said stator core forms a continuous circumferentially-smooth heat-conducting surface, said outer surfaces facing radially outwards from said stator core and extending from a vicinity of said end surface of said stator core to apex portions of said coil ends, and wherein a distribution channel for a liquid coolant is disposed for absorbing heat generated in said stator and conducted from said heat-conducting surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
